Dairy calves with limited amounts of milk, Further studies on raising	16
Dairy bulls from Canadian R.O.P. records, Estimating breeding values of	40
Dairy stock, Pasture for young:	
I. Effect of previous nutritional level and age on growth of Ayrshire and Holstein heifer calves and yearlings on pasture	55
II. Effect of previous nutritional level and age on growth of Holstein heifer calves on pasture	63
Domestic fowl, The breeding potential of full sisters in the	9
Feeder lambs, Digestibility and feedlot studies on rapeseed screenings for	230
Feeds and feces, Methoxyl analysis of: A comparison of methods	197
Fire- and smoke-damaged wheat, Note on the value of, for growing turkeys	266
Lambs during the first 14 months of life, Wool and body growth in	78
Mouse colony, An economical laboratory	143
Mincing large carcasses, A simple machine for	158
Pigs and rats fed diets containing non-nutritive diluents and varying in protein level, Energy digestibility and nitrogen retention by	89
Pigs, The effect of a purified source of cellulose on the growth and body composition of growing	120
Pigs reared in an non-isolated environment, Effects of porcine immune globulin administration on the survival and serum protein composition of colostrum-deprived	236
Rat, The influence of dietary vitamin A on the weight increase, food utilization and nitrogen retention of the	253
Relationship between vitamin B ₁₂ and reproduction in swine, Some observations on the	212
Romnelet sheep, Development of the	102
Romnelet sheep, Heritabilities of weaning weight, yearling weight, and clean fleece weight in range	109
Romnelet sheep during the period of breed development, Genetic trends in performance of the	126
Romnelet sheep, An appraisal of selection in the	205
Ruminant rations, The addition of buffers to. I. Effect on weight gains, efficiency of gains and consumption of rations with and without roughage	134
Rumen gas analysis by gas-solid chromatography	187
Selenium, Note on the effects of, on wool growth and body gains in sheep	263
Shropshire lambs, Effects of age at weaning of, on weight gains and carcass score	180
Sustained release pellet for administration of chromic oxide to sheep in digestibility studies, Preliminary observations in the use of a	71
